The response was always very good and we are very happy with that. If we have another job vacancy we will certainly think about publishing it on Beveiliging Nieuws.

One time job vacancy: € 250 for 60 days.

What helps a lot is the combination of a job vacancy with editorial news, for example: the announcement of a large project for which your new people are needed. But also other news is welcome. It will make your company more known, which makes it more attractive to jobseekers to apply for you.

If you have more job vacancies it can be beneficial to opt for a job vacancy account. This costs you only 450 euro per year. With a job vacancy account you can always have three job vacancies published at the same time. You can change job vacancies as many times as you like.

Job Vacancy Account: € 490 for three vacancies at the same time
